

October 17, 2005

To Whom It May Concern:

I am a property manager for Brandywine Realty Trust and have managed the Green Hills Corporate Center for them since August 1, 1997. During that period of time, I have had the pleasure of working with Ramon of LinkTech on many occasions. He has done work for several of my tenants as well as for Brandywine Realty Trust. His work has always proven to be completed in a timely manner with a commitment to quality.

During a December, 2004, move of the property management office at the Green Hills Corporate Center, our contracted telephone/IT installation service company totally dropped the ball and we had to hire another company with only 10 days to go until the move. We called Ramon at LinkTech and told him about our problem. Without hesitation, he said that they would take care of our problem and the next day, we had a team of installers in our new office doing the rough wiring.

On many occasions, he does this same sort of last-minute work for many of the tenants here at the corporate center. Ramon is always up-beat and a pleasure to deal with.

Sincerely,

Terry A. Hafer
Property Manager
